Section II
SYSTEM OR EQUIPMENT CODES
(Item B12C)

SECTION II

SYSTEM OR EQUIPMENT CODES

(Item B12C)

Purpose

The DD Form 350 codes in this section have been developed to facilitate an analysis of DoD procurement by Major Defense Acquisition Program,* system, or equipment item. However, if an end item or a component identifiable to an end item cannot be identified by a specific code, a request for a code, attached with the applicable DD Form 350, should be addressed to the appropriate organization specified in DoD FAR Supplement 253.204-70. Submission of the DD Form 350 will not be delayed pending resolution of the inquiry.

If a system or equipment code is not applicable to a DD Form 350 transaction or bears a security classification prohibiting unclassified disclosure of the code title in combination with other DD Form 350 items, the code "000" (three zeros) shall be assigned.

Description and Use of Code

The code for Item B12C consists of three alphabetical positions. The first position identifies one of the following major categories of equipment:

A	Aircraft	F	Ammunition
B	Aircraft Engines	G	Electronics
C	Missiles & Rockets	H	Other Equipment
D	Vehicles	S	Ships
E	Weapons		

The second position identifies a subdivision of the major category, e.g., trainer aircraft, while the third position identifies the specific item, e.g., an F-111.

Normally, each system or equipment code includes all subsystems, components, repairs and repair parts, modifications, and related supplies and services (other than RDT&E and construction) which are procured specifically for the system or equipment. Exceptions to this rule are those instances where a specific equipment item or a major component has been assigned a separate code, e.g., J-52 Turbojet Aircraft Engines.

When a procurement is for components, parts, or services covering more than one system or equipment and 75 percent or more of the dollar amount is allocable to a single system or equipment, the code for that system or equipment shall be assigned. Otherwise, multi-system procurement shall not be assigned a specific code.

*The Major Defense Acquisition Programs are defined by the criteria in Section 2430, Title 10 of the U.S. Code.

Each department should use only that part of Section II designated for its use, e.g., Part A for Army, Part B for Navy and Part C for Air Force. The arrangement of systems or equipment by major category is as follows:

1. Aircraft are arranged by design number within each basic mission symbol, e.g., A-4, A-5, A-6, and F-4.
2. Aircraft engines are arranged by design number within type of engine.
3. Missiles and rockets are arranged by design number.
4. Air Force electronics and communications items are arranged numerically by system number.
5. All other categories are arranged alphabetically by key word or words and by caliber size.

If an aircraft, missile, or rocket reported on DD Form 350 does not have a mission symbol or letter prefix listed in this manual but does have a design number that is listed, the code applicable to that design number should be assigned. For example, an RB-52 aircraft would be assigned the code for a B-52. In addition, the series symbol for an item is not used, e.g., F-111 is used, rather than F-111A or F-111B.

DOD CLAIMANT PROGRAM NUMBERS
(Item B12B)

SECTION III

DOD CLAIMANT PROGRAM NUMBER

(Item B12B)

A claimant program number designates a grouping of supplies, construction, or other services. One of the following code numbers should be entered in Item B12B of each DD Form 350 in accordance with definitions provided in this section.

<u>Code</u>	<u>Program Title</u>
A1A	Airframes and Related Assemblies and Spares
A1B	Aircraft Engines and Related Spares and Spare Parts
A1C	Other Aircraft Equipment and Supplies Not Included in A1A and A1B
A20	Missile and Space Systems
A30	Ships
A4A	Combat Vehicles
A4B	Non-Combat Vehicles
A50	Weapons
A60	Ammunition
A70	Electronics and Communication Equipment
A8A	Petroleum
A8B	Other Fuels and Lubricants
A8C	Separately Procured Containers and Handling Equipment
A90	Textiles, Clothing and Equipage
B10	Building Supplies
B20	Subsistence
B30	Transportation Equipment (Railway)
B90	Production Equipment
C20	Construction
C9A	Construction Equipment
C9B	Medical and Dental Supplies and Equipment
C9C	Photographic Equipment and Supplies
C9D	Materials Handling Equipment
C9E	All Others Not Identifiable to Any Other Procurement Program
S10	Services

When planned use is known at the time of purchase, a procurement program should be selected on the basis of the use of the supplies or work purchased. This includes all items pertaining to the following:

1. Crating, packaging materials and dunnage.
2. Conversion, maintenance and repair, including:
 - a. Materials
 - b. Services (performed by contractors)
 - c. Operating supplies
 - d. Components and repair parts
3. Related training equipment and devices (including technical manuals and publications).
4. Related research and development and preproduction materials and equipment. An exception, however, is the construction of research and development facilities, which are included in program C20.

When planned use is not known, items pertaining to the supplies and services listed above shall be identified with program C9E or S10, as appropriate.

A-1 AIRCRAFT PROGRAM

This program consists of three subprograms: (a) Airframes and Related Assemblies and Spares; (b) Aircraft Engines and Related Spares and Spare Parts; and (c) Other Aircraft Equipment and Supplies Not Included in Subprograms (a) and (b).

(a) Airframes and Related Assemblies and Spares.

<u>Includes</u>	<u>Excludes</u>	<u>Program in Which Exclusions are Included</u>
Complete aircraft (procured as such, i.e.--helicopters, excluding GFE).	GFE tires and tubes	A-1c
Airframe assemblies and spares, such as tail assemblies, wing assemblies, landing gears, etc.	General purpose production equipment.	B-9
Special jigs, dies and fixtures to be used only in the fabrication of a specific airframe model (including variations thereof).	Production facilities.	C-2
Maintenance tools peculiar to the aircraft.		

(b) Aircraft Engines and Related Spares and Spare Parts.

<u>Includes</u>	<u>Excludes</u>	<u>Program in Which Exclusions are Included</u>
Aircraft engines and parts.	Aircraft engines incorporated in aircraft procured as complete aircraft.	A-1a
Assist takeoff other than droppable units.	Assist takeoff (ATO), droppable units only.	A-6
Aircraft jet engines and parts used, without major modification, on guided missiles.	General purpose production equipment.	B-9
Special jugs, dies and fixtures to be used only in the fabrication of a specific model of aircraft engine, including inspection gauges.	Production facilities	C-2
Maintenance tools peculiar to the engine.		

(c) Other Aircraft Equipment and Supplies Not Included in Subprograms (a) and (b).

<u>Includes</u>	<u>Excludes</u>	<u>Program in Which Exclusions are Included</u>
Aircraft instruments and parts (except electronic equipment for communication, fire control and radar). Electrical equipment, such as generators, inverters, starters, alternators, etc.	GFE electronics and communications equipment.	A-7
Aircraft propellers and hubs.	GFE weapons.	A-5
Mobile training units.	GFE fire control, bomb sights and related electromechanical devices.	A-5 or A-7
Flight simulators.	Aircraft weapons.	A-5
Ground handling equipment peculiar to a specific model of aircraft.	Photographic equipment.	C-9
Other accessories and parts readily identifiable for aircraft use, such as gun turrets, bomb racks and releases, rocket launchers, fuel tanks, droppable aircraft tanks, tires and tubes, control wires, servo and other control mechanisms, etc.	Airborne accessories not an operational part of the aircraft, such as life rafts, oxygen masks, parachutes, fire extinguishers, etc.	A-9 or C-9
	Organizational equipment, such as general ground or deck handling equipment, ships, hangar and airfield equipment.	B-9 or C-9

A-2 MISSILES & SPACE SYSTEMS PROGRAM

<u>Includes</u>	<u>Excludes</u>	<u>Program in Which Exclusions are Included</u>
Missiles and space systems.	GFE aircraft jet engines used, without major modifications, on missiles or space systems.	A-1b
All missile and space system parts and related equipment procured from prime contractors except items excluded.	Fuels.	A-6 or A-8
CFE electronic equipment for missiles and space systems.	GFE electronic equipment.	A-7
Booster cases for missiles.		
Ground handling and launching equipment peculiar to a specific model of missile or space system.		
Target drones.		
Special jigs, dies and fixtures which can be used only in producing specific types of missiles and space systems, including inspection gauges.		

A-3 SHIPS PROGRAM

<u>Includes</u>	<u>Excludes</u>	<u>Program in Which Exclusions are Included</u>
Construction of vessels of all types.	Guns, rocket launchers, torpedo tubes, depth charge projectors and other weapons.	A-5
Total cost of services, civilian labor, and ship parts used in conversion, repair, overhaul and modernization, whether done by private contractors or in government shipyards.	Fire control equipment	A-5
Ship parts (except those excluded).	GFE electronic equipment, e.g., communications, fire control, radar ect.	A-7
Ship armor not procured with, or as a part of, weapons.	Ship equipage and housekeeping supplies, such as brooms, soap, paint, grease, light bulbs, mess and galley utensils, cleaning rags; office supplies; clothing and other personal items; recreation equipment and supplies; and similar types of items which are not usually produced as ship parts.	Generally A-9 or C-9
Aircraft catapults and arresting gear.	Pontoons (including propelling units).	B-1
Assault boats.	Fabric or rubber life rafts.	A-9
Floating cranes, floating drydocks, and bridge erection boats.	GFE production equipment.	B-9
Production equipment procured as a part of and mounted on floating equipment.		
Tracked amphibious vehicles, such as LVT's.		
Shipborne deperming and degaussing equipment.		
Special jigs, dies and fixtures, which can be used only in specific shipbuilding operations, including inspection gauges.		

A-4 TANK/AUTOMOTIVE PROGRAM

This program consists of two subprograms: (a) Combat Vehicles & (b) Non-combat Vehicles.

(a) Combat Vehicles.

<u>Includes</u>	<u>Excludes</u>	<u>Program in Which Exclusions are Included</u>
Tanks.	Weapons.	A-5
Self-propelled gun motor carriages.	Fire control equipment.	A-5
Other combat vehicles.	GFE electronic equipment,	A-7
Combat vehicle parts.	e.g., communication, fire control, etc.	
Modification, whether done in private or in government production facilities.	Tracked amphibious vehicles, such as LVT's.	A-3
Special jigs, dies and fixtures which can be used only in producing a specific combat vehicle model.	Production facilities.	C-2
	General purpose production equipment.	B-9

(b) Noncombat Vehicles.

<u>Includes</u>	<u>Excludes</u>	<u>Program in Which Exclusions are Included</u>
Trucks, ambulances, passenger cars, buses, motorcycles and other motorized vehicles, including wheeled amphibious vehicles (except vehicles identifiable to the construction equipment portion of the Miscellaneous Equipment Program C-9).	Weapons.	A-5
Power-driven trucks, decontaminating. Bicycles.	GFE electronic equipment, e.g., communication, fire control, radar, etc.	A-7
Trailers and semitrailers.	Fire control equipment.	A-5
Repair, maintenance and other special purpose noncombat vehicles.	Warehouse, airfield and industrial tractors.	C-9
Prime, contractor-furnished repair, rebuild, production and service equipment procured as a part of and mounted on noncombat vehicles.	GFE repair, production and service equipment mounted on noncombat vehicles.	C-9
Other accessories and parts readily identifiable for noncombat vehicle use, such as tires, spark plugs, batteries, etc.		
Modification whether done in private or in government production facilities (kits).		
Truck tractors.		
Special jigs, dies and fixtures which can be used only in producing a specific noncombat vehicle model, including inspection gauges.		

A-5 WEAPONS PROGRAM

<u>Includes</u>	<u>Excludes</u>	<u>Program in Which Exclusions are Included</u>
Small arms, automatic weapons, mortars, artillery, guns, rocket and grenade launchers and pyrotechnic projectors, including those mounted on vehicles, ships and aircraft.	Paravanes.	A-3
Flame throwers.	Shipborne deperming and degaussing equipment.	A-3
Smoke generators (land).	Rocket launchers readily identifiable for aircraft use and launching equipment peculiar to a specific model of guided missile.	A-1 or A-2
Torpedo tubes.	Electronic fire control equipment such as MK56, MK63, T33, MK101, MK102, etc.	A-7
Harbor protection nets.		
Depth charge projectors.		
Wholly optical, electrical, or mechanical fire control equipment, including binoculars, bomb sights, other optical equipment, stop watches and fire control mounts.		
Nonelectronic portions of electronic fire control equipment if separately procured and if procurement and requirement data are separately maintained.		
Special jigs, dies and fixtures which can be used only in producing specific types of weapons, including inspection gauges.		
Deperming and degaussing equipment (Range Station).		

A-6 AMMUNITION PROGRAM

<u>Includes</u>	<u>Excludes</u>	<u>Program in Which Exclusions are Included</u>
Ammunition, rockets, bombs, mines, grenades, torpedoes, depth charges, demolition material and pyrotechnics.	Commercial type petroleum products.	A-8
ATO units (droppable units only) and fuel for ATO units.	VT fuzes.	A-7
Rocket and guided missile fuel.	Booster cases for guided missiles.	A-2
Machine gun links.	Nondroppable propulsion devices installed in aircraft.	A-1
Ammunition parts.	Droppable aircraft tanks.	A-1c
Chemicals used in bombs, flame throwers, smoke generators and ammunition.		
Special jigs, dies and fixtures which are used in producing a specific type of ammunition, including inspection gauges.		

A-7 ELECTRONICS and COMMUNICATION EQUIPMENT PROGRAM

<u>Includes</u>	<u>Excludes</u>	<u>Program in Which Exclusions are Included</u>
Electromagnetic radiating and non-radiating equipment, except that radiating in the visible spectrum, including: radio equipment including uses for telegraph, telephone, teletype, facsimile, television and IFF signals.	X-ray apparatus.	C-9
Radar equipment.	Nonelectrical communication equipment such as pigeons and flags.	A-9 and C-9
Electronic and electro-mechanical computers.	Blinker lights and flash lights.	C-9
Radiation aids to aircraft control and navigation, including control of guided missiles.	Telephone poles.	B-1
Radiation aids to control fire bombing, armament and related electro-mechanical types (not otherwise covered).	Tool repair kits, pole climbing equipment, plows, earth augers and other tools.	C-9
Radiation countermeasures, including electronic deception and electronic jamming.	Photographic equipment.	C-9
Radiac.	Nonelectronic meteorological equipment such as thermometers, barometers, etc.	C-9
Infrared.	Shelters, carts winches, rope, boards, maps, tables, stakes, air conditioners, etc.	C-9
Meteorological.	Wholly optical, electrical or mechanical fire control equipment, including binoculars, bomb sights, other optical equipment, stop watches and fire control mounts.	A-5
Sonar equipment.	Nonelectric portions of electronic fire control equipment if separately procured and if procurement and requirements data are separately maintained.	A-5
Magnetic amplifier and detection equipment.		
Equipment used for transmission or reception of intelligence by wires, cables, or coaxial cable, including recorders, reproducers, telegraph, telephone, teletype, facsimile, television, interphone, public address and telemetering.		
Equipment which is used for the detection of noise and interference in the radio frequency spectrum.		
Radiation and reradiation equipment related to the preceding items.		
Equipment which is ancillary to the preceding items such as antennas, connectors, dynamotors, headsets, microphones, radomes, servoamplifiers, test equipment, wave-guides, cooling, heating and pressurizing equipment.		
VT fuzes.		
Guided bombs, such as Tarzon and Razon.		
Special jigs, dies and fixtures which can be used only in producing specific types of electronics and communication equipment, including inspection gauges.		
Electronic fire control equipment such as MK56, MK63, T33, MK101, MK102, etc.		
Sniperscope.		

A-8 FUELS and LUBRICANTS PROGRAM

This program consists of three subprograms: (a) Petroleum Products, (b) Other Fuels and Lubricants and (c) Separately Procured Containers.

(a) Petroleum Products.

<u>Includes</u>	<u>Excludes</u>	<u>Program in Which Exclusions are Included</u>
Residual fuel oils.	Other fuels and lubricants.	A-8b
Lubricating oils.	Separately procured containers for petroleum and petroleum products.	A-8c
Aviation gasolines.	Petroleum handling equipment	A-8c
Motor gasolines.		
Kerosene.		
Distillate fuels.		
Insulating transformer oils.		
Fog oil.		
Greases.		
Jet fuels.		
Asphalts and road oils.		
Liquefied petroleum gas.		
Solvents and naphthas.		
Containers, when provided by the supplier, in which petroleum products are delivered to the government.		
Chemicals which are used directly in the production of petroleum and petroleum products as well as chemicals used in the processing of petroleum and petroleum products which will be consumed or converted into by-products in the course of processing.		

(b) Other Fuels and Lubricants.

<u>Includes</u>	<u>Excludes</u>	<u>Program in Which Exclusions are Included</u>
Coal and coke.	Fuel for AT0.	A-6
Manufactured gas.		
Natural gas.		
Other nonpetroleum fuel and lubricants.		
Containers, when provided by the suppliers, in which other fuels and lubricants are delivered to the government.		

(c) Separately Procured Containers and Handling Equipment.

<u>Includes</u>	<u>Excludes</u>	<u>Program in Which Exclusions are Included</u>
Separately procured containers specifically intended for use with petroleum and petroleum products noted in A-8a such as can, inflammable liquid, steel 5 gallon and drum inflammable liquid, steel, 16-gauge 55 gallon.	Fuel cells	A-1
Drum cleaning machines, portable petroleum pumps, skid tanks and petroleum dispensing nozzles.		

A-9 TEXTILES, CLOTHING and EQUIPAGE PROGRAM (TEXTILES)

<u>Includes</u>	<u>Excludes</u>	<u>Program in Which Exclusions are Included</u>
All clothing and leather products.	Metal containers of more than	C-9
All textiles and textile products, such as tenting, paulins, bags, towels, bedding, canvas cots, packs, etc.	1 quart capacity.	
Tents, etc.	General housekeeping supplies such as insecticides, soap, toilet paper, candles, light bulbs, paint, etc.	C-9
Flags and accessories.	General housekeeping equipment such as cooking and heating equipment, refrigeration and air conditioning equipment, garbage cans, furniture, etc.	C-9
Athletic equipment.	Office, depot and warehouse supplies and equipment.	C-9
Gas masks (including carrier).	Fire extinguishers.	C-9
Items which are generally issued to the individual for his own use such as toilet articles, entrenching tools, eating and drinking utensils, etc. (but excluding weapons, am- munition, medical, engineer and other technical items).	Steel, 16 gauge, 55 gallon.	A-8c
Oxygen masks, parachutes and drop kits.	Separately procured containers specifically intended for use with petroleum and petro- leum products such as can, inflammable liquid, steel, 5 gallon and drum inflammable liquid.	A-8c
Life belts and jackets.		
Dust respirators.		
Rubber or fabric life rafts.		
Shoe lasts.		

B-1 BUILDING SUPPLIES

<u>Includes</u>	<u>Excludes</u>	<u>Program in which Exclusions are Included</u>
Military type bridging (including pontoon bridges).	Construction machinery, such as tractors, power shovels, etc.	C-9a
Landing mats.	Hand tools	C-9e
Barbed wire and metal posts	Portable heating, refrig- erating and ventilating equipment.	C-9e
Pipe and storage tanks for pipe- line projects.	Bridge erection boats	A-3
Prefabricated buildings.		
Construction supplies including telephone poles, piling, rail- way track and ties, lumber, cement, bricks, hardware, mill- work, etc.		
Heating, refrigerating, plumbing, and lighting fixtures and other electrical equipment to be in- corporated as an integral part of structures.		
Pontoon and pontoon propelling units.		
Insulated wire and cable, except communication wire.		

B-2 SUBSISTENCE PROGRAM

<u>Includes</u>	<u>Excludes</u>	Program in Which Exclusions <u>are Included</u>
All food and beverage products for human use, including operational type rations.	Water can, 5 gallon	C-9e
Materials used for care and preservation of subsistence supplies.	Cigarettes not part of a subsistence package	C-9e
Drums, cans and other containers and packaging materials, required for the delivery of food and beverage products.		
Chemicals which are used directly in the production of food and food products as well as chemicals used in the processing of food and food products which will be consumed or converted into byproducts in the course of processing		
Forage for animals.		

B-3 TRANSPORTATION EQUIPMENT PROGRAM

<u>Includes</u>	<u>Excludes</u>	Program in which Exclusions <u>are Included</u>
Railway rolling stock and parts.	Railway track, ties and accessories.	B-1
Railway cranes and parts.		
Railway tools.		
Railway signal equipment.		
Maintenance of way equipment.		

B-9 PRODUCTION EQUIPMENT

This program consists of Production Equipment to be used by Government-Owned Facilities and by Privately-Owned Facilities.

<u>Includes</u>	<u>Excludes</u>	<u>Program in Which Exclusions are Included</u>
Machine tools and other general purpose cutting, forming, shaping, grinding, abrading, measuring, joining, testing, heating or treating, production equipment to be used in production facilities. Rehabilitation and modernization costs and parts (but not routine maintenance) for above production equipment. Heavy duty materials handling equipment not incorporated as an integral part of the industrial facility such as overhead traveling cranes, shipyard cranes, etc. Production equipment used for repair and maintenance if such equipment is not procured as a part of and mounted on floating equipment or vehicles.	Materials handling equipment such as conveyor systems installed in warehouses or other nonproduction facilities. Portable conveyors, fork lift trucks, industrial tractors and trailers, stackers, etc. Nonmechanical processing equipment and incorporated as an integral and permanent part of an industrial facility, such as processing vats, etc. Special jigs, dies and fixtures which can be used only in producing a specific model of a military item. Hand tools Heavy duty materials handling equipment incorporated as an integral part of the industrial facility such as overhead traveling cranes, shipyard cranes, etc.	C-9d C-9d C-2 Applicable Program C-9e C-2

C-2 DEPARTMENT OF DEFENSE CONSTRUCTION PROGRAM

This program consists of all construction, alteration, rehabilitation, or conversion of military industrial and nonindustrial installations, facilities, or portions thereof. It comprises all of the above facilities financed in whole or in part from appropriated funds. All machinery and equipment (except production equipment) organic to the facility and installed as part of the construction project for the facility will be included. Also includes ground improvement and installation of utilities.

<u>Includes</u>	<u>Excludes</u>	<u>Program in which Exclusions are Included</u>
Architect engineer services.		
Construction of new industrial facilities and expansion, major alteration or conversion of existing industrial facilities, which are Government-financed and will become Government owned including both Government-operated and contractor-operated facilities.	Production equipment installed in construction projects	B-9
Training, operational, housing and support facilities or any other facilities necessary for the military forces. Installed equipment organic to the facility will be included.	Land and departmental overhead services.	
Construction of military nonindustrial facilities financed under Public Works Appropriations (MCA, PW-N and ACEP-AF).	Construction equipment and machinery.	C-9a
Construction of military nonindustrial facilities financed from appropriations other than Public Works Appropriations.	Facilities constructed entirely from State funds and for which the title will be vested in the State.	
Military housing projects constructed under Title VIII of the National Housing Act.		
Air and Army National Guard facilities to be constructed partially or entirely from Federal funds.		
Building equipment such as elevators, fire protection systems, electrical power systems, or other equipment organic to a facility and installation materials therefor.		

C-9 MISCELLANEOUS PROGRAM

This program consists of five subprograms: (a) Construction Equipment; (b) Medical and Dental Supplies and Equipment; (c) Photographic Equipment and Supplies; (d) Material Handling Equipment; (e) All Others not Identifiable to any Other Procurement Program.

(a) Construction Equipment.

<u>Includes</u>	<u>Excludes</u>	<u>Program in which Exclusions are Included</u>
Power shovels, mobile cranes, bulldozers, concrete mixers, ditching machines, road and airfield construction and maintenance machinery, earthmoving trailers and similar construction equipment.	Dump trucks	A-4
Pneumatic drills, welding equipment paint sprayers, air compressors, and pumps of the type used for construction.	Engineering, drafting and mapping instruments.	C-9e
Commercial construction type tractors.	Generator sets	C-9e or other applicable program.
Power saws.	Photographic and Reproduction equipment.	C-9c
Earth augers and well drilling machines.	Water storage, distribution, and purification equipment for field use.	C-9e
	Tractors of a type not usually used for construction, such as artillery prime movers, warehouse tractors, etc.	A-4 C-9d
	Refrigeration and air conditioning equipment.	C-9e

(b) Medical and Dental Supplies and Equipment.

<u>Includes</u>	<u>Excludes</u>	<u>Program in which Exclusions are Included</u>
Medical and dental supplies and equipment such as drugs, chemicals, biologicals, surgical dressings, instruments, hospital and dental furniture and equipment, X-ray equipment and film, etc.	Ambulances	A-4
	Bedding	A-9
	Pajamas and robes	A-9
	Towels	A-9

(c) Photographic Equipment and Supplies.

<u>Includes</u>	<u>Excludes</u>	<u>Program in which Exclusions are Included</u>
Cameras.	X-ray Cameras and film	C-9b
Film.		
Photographic projecting, developing, copying and related equipment.		

(d) Materials Handling Equipment.

<u>Includes</u>	<u>Excludes</u>	<u>Program in which Exclusions are Included</u>
Conveyors. Warehouse trucks, tractors and trailers. Forklift trucks, stackers, etc.	Conveyors and elevators installed as an integral part of building.	C-2

(e) All Others Not Identified to Any Other Procurement Program.

<u>Includes</u>	<u>Excludes</u>	<u>Program in which Exclusions are Included</u>
Housekeeping supplies such as insecticides, toilet paper, candles, soap, etc. Heating, refrigerating, plumbing and lighting fixtures, other electrical equipment, furniture and cooking equipment, except equipment incorporated as an integral part of a building or structure. Office supplies and equipment. Nonelectronic meteorological equipment. Animals. Mortuary and grave registration supplies and equipment. Training and educational supplies and equipment not included in other programs. Laundry and dry cleaning equipment. Mess equipment. Water storage, distribution and purification equipment for field use. Field, combat and troop equipment including water can (5 gal.), heaters (immersion and tent), field range, cooking outfit (one burner), field stove. Maintenance Items, repair items, and operating supply items.		

S-1 SERVICES PROGRAM

This program consists of all services which cannot be identified to any other procurement program.

<u>Includes</u>	<u>Excludes</u>	<u>Program in which Exclusions are Included</u>
Technical representative service.	Maintenance or repair of building.	C-2
Operation of Government facility.	Architect engineer services.	C-2
Basic research.	Construction	C-2
Medical services.	Research and development where end product is known.	Appropriate supply program.
Lease or rental of machinery or equipment.	Maintenance, repair or rebuild of equipment.	Appropriate supply program.
Utility services (electrical, gas, telephone, water, steam).		
Custodial, janitorial services.		
Training, education, tuition services.		
Photographic services.		
Mapping services.		
Printing services.		
Publication services.		
Funeral services.
